What is Elite Learning?

The Southwest Virginia Education and Training Network (SVETN) is a 501 (c) (3) not-for-profit corporation governed by educators. The SVETN was established in response to a need to increase curriculum offerings in small rural schools throughout southwestern Virginia. Organized originally for the purpose of facilitating instruction by interactive video, within the past decade other distance learning modes have emerged. The SVETN is headquartered in Abingdon at the Southwest Virginia Higher Education Center and staffed by two full-time and one part-time employee.

In 2004, SVETN launched Elite Learning, a program of asynchronous online courses in its seventeenth year serving the students of southwestern Virginia. Elite is an acronym for Experience Learning Innovation and Teaching Excellence. SVETN serves the educational needs of learners in Bland, Buchanan, Carroll, Dickenson, Grayson, Lee, Russell, Scott, Smyth, Tazewell, Washington, Wise, Wythe, and the cities of Norton, Bristol, and Galax.

Most courses offered by Elite Learning are dual enrollment, meaning students receive both high school and college credit for the same coursework. Elite Learning provides SVETN member high schools with a selection of courses taught by college adjuncts who use an Internet based Learning Management System (LMS), called Canvas. Canvas supports a combination of rigorous collaborative and self-paced activities conducted at the learner's computer.

Classes are asynchronous. That is, students may proceed at their own speed, on their own time within a flexible calendar framework. Thus, the scheduling of in-school work time also is conveniently flexible. Any school schedule can be accommodated since Elite Learning classes are offered in both semester and yearlong formats.

Nineteen fully developed and tested online courses approved for Virginia high school graduation and community college credits will be offered during the 2021-2022 school year.

Objectives of Elite Learning

Objective One—Increase Dual Enrollment Opportunities

Elite Learning has experienced a steady increase in student enrollment. Since 2008, enrollment has grown from 130 to a high of 1,771 students during the 2018-2019 school year. Enrollment for the past two school years was negatively affected by school closures and alternative scheduling resulting from the Covid-19 pandemic. In multiple situations, students who were unable to complete their schoolwork from their home were withdrawn from courses. Enrollment for the upcoming school year is expected to increase.

Objective Two—Impact Low- and Moderate-Income Families

SVETN's Elite Learning students may have reduced tuition expenses. Most students who participate in Elite Learning course pay much less for their course as a dual-enrollment option than a traditional community college course. The expense for students is determined by each school division.

Objective Three—Provide Opportunity for Students to Get a Head Start on College Career

SVETN's Elite Learning students will earn college credits giving them a head start on their college education. Students who successfully complete an Elite Learning course receive 3 or 6 college credit from their local community college. These colleges include Virginia Highlands Community College, Wytheville Community College, Southwest Virginia Community College, and Mountain Empire Community College. Since 2008, students have received a total of 45,342 college credits.

Objective Four—Increase Financial Literacy of Students

SVETN's Elite Learning students participating in Economics and Personal Finance will be exposed to financial literacy education. All high schools in Virginia face a new requirement to provide this course to all students before graduation.

With limited financial resources, it can be a challenge for small high schools to find adequate classroom space and instructors to meet this mandate. Elite Learning will offer the course for high school credit. Each course is designed to meet or exceed all Career and Technical Education competencies for Virginia Public Schools.

Objective Five—Maintain High Academic Standards

SVETN's Elite Learning will maintain high academic standards of all students. Elite Learning students have historically experienced tremendous success academically. Over 96% of students have earned a "C" or higher average in their course with 65% of those students earning an "A" average. This is due in part to the one-on-one teaching approach supported by Elite Learning instructors. School counselors will be notified every three to four weeks with student grades. Instructors will contact counselors individually at any point there is concern that a student is not exhibiting academic success. The goal is for all students to achieve a minimum grade of a 70/C.

Objective Six—Ensure Content Meets Established Standards

SVETN's Elite Learning will provide curriculum that meets or exceeds all Virginia Department of Education Career and Technical Education competencies and Standards of Learning. SVETN will also meet all standards of quality adopted by the Virginia Community College System. Curriculum material is provided to community colleges for approval.

Step 1: Log in to your School Administrator Account.

Step 2: Once logged in, click on the “Supervisor Report” icon as indicated below. The Supervisor Report window will appear. *NOTE: It may take a few moments for the data to load.*

Online Etiquette Expectations for Students

These standards of conduct apply to both formal and informal communication within all online courses.

Personal Conduct

This standard applies to both formal and informal discussions within your course.

Show respect for others.

- Always ask yourself ‘would I say this to a person’s face?’
- Avoid offensive language.
- Be tolerant of diverse opinions and perspectives.

Communication Procedures

These standards apply primarily to formal communications including discussion forums, course mail, drop boxes and other instructor-assigned topics.

1. Responses must be more than a simple agreement or disagreement.
2. Do not be afraid to disagree with others in the group.
 - If you agree or disagree, choose a position and defend it while respecting the opinions of others.
 - Make sure discussions are intellectual not emotional.
 - Point out mistakes politely.
3. Course communication must follow directions for the specific assignment.
 - Submit using the appropriate tool—drop box, discussion forum, course mail, etc.
 - Respond in a timely manner and stay focused on discussion topic.
 - Follow the format specified by the instructor.
4. Proofread submissions carefully.
 - Observe rules of grammar, punctuation, and spelling including avoiding use of slang, Internet abbreviations or lingo.
 - Make sure what you write makes sense.
5. Plagiarism will result in a zero. Students should contact their instructor if they do not completely understand plagiarism. It is a serious offense of the honor code for both Elite Learning and the community college.

Sophomore Participation Requirement

Dual Enrollment coursework is restricted to high school juniors and seniors. Because admitting sophomores is considered exceptional, the college-ready status of each prospective sophomore student will be treated on a case-by-case basis. An exceptional sophomore would be a student who is in an honors or gifted program at the time they request permission to take dual enrollment courses.

Permission to participate in Elite Learning courses will require approval from the community college. Requests by the secondary school for exceptions must be forwarded to the Dual Enrollment Coordinator, along with relevant academic information regarding the student. The request must demonstrate that the student has met established placement criteria and is ready both academically and emotionally for college-level coursework.

Each community college may require different paperwork. Contact the following Dual Enrollment Coordinators for more information:

- VHCC: Pat Farmer at pfarmer@vhcc.edu
- WCC: Josh Floyd at jfloyd@wcc.vccs.edu
- SVCC: Christina Rimmer at christina.rimmer@sw.edu
- MECC: Melissa McKinney at MMcKinney@mecc.edu

Code of Student Conduct

Each student is considered a responsible adult, and it is assumed that students will maintain standards of conduct appropriate to membership in this online learning program. Emphasis is placed on standards of student conduct rather than on limits or restrictions. Guidelines and regulations governing student conduct are developed by representatives of the faculty, staff, and administration.

NOTE: All Elite Learning students are community college students and must abide by the Code of Conduct of their representative college. Elite Learning's Code of Conduct is derived from partner community college regulations.

Forms of Student Misconduct Subject to Disciplinary Action

1. All forms of dishonesty, including cheating, plagiarism, knowingly furnishing false information to instructors or administrators, and the forgery, alteration, or use of course documents or instruments of identification with the intent to defraud.
2. All forms of plagiarism including the appropriation of passages, either word for word or in substance, from the writings of another and the incorporation of those passages as one's own in written work offered for credit. Elite Learning assumes that the written work offered for credit is the student's own unless proper credit is given the original author by the use of quotation marks and footnotes or other explanatory inserts.
3. All collaboration with another person in the preparation or editing of notes, themes, reports, or other written work offered for credit is prohibited unless such collaboration has been specifically approved in advance by the instructor. Examples of collaboration include extensive use of another's ideas for preparing a creative assignment and receiving undue assistance in the preparation or editing of written materials.
4. Giving or receiving, offering or soliciting information on any quiz, test, or examination is prohibited; this includes the following:
 - (a) Copying from another student's paper.
 - (b) Use of prepared materials during the examination.
 - (c) Collaboration with another student during the examination.
 - (d) Buying, selling, stealing, soliciting, or transmitting the contents of an examination.
 - (e) Substituting for another person during an examination or allowing such a substitution for one's self.
 - (f) Bribery of any person to obtain examination information.

Misconduct Guidelines – Online Learning Specifics

1. Students who gain access to user accounts other than their own by using various technologies or through other dishonest means may be suspended from the program. See suspension outcomes under the Sanctions section of this document.
2. Students who intentionally or unintentionally view other's personal information, grades or other "locked" areas of user accounts may be suspended from the program. See suspension outcomes under the Sanctions section of this document.
3. Students are expected to perform all work themselves. If it is discovered and proven that any student is allowing others to access their user account and complete assignments, tests, etc., he or she may be suspended at the discretion of the administrators.
4. Administrators retain the right to use any and all tracking technologies available to them within student civil rights. This will ensure that students are presenting assignments in an honest manner.

Sanctions

IT'S IMPORTANT FOR STUDENTS TO UNDERSTAND THAT VIOLATIONS WILL BE REPORTED TO THE COMMUNITY COLLEGE. COLLEGE REPRESENTATIVES MAY HELP DETERMINE THE PROPER COURSE OF ACTION FOR EACH VIOLATION.

The following sanctions may be imposed:

Admonition: An oral or written statement to a student that he/she is violating or have violated program rules and may be subject to more severe disciplinary action.

Suspension: Exclusion from participating in the program as a student for a definite period of time. Suspension will result in a zero grade reported to the community college in which the student is enrolled.

Additional sanctions may be imposed if the Honor Code violation is severe. Violations may be reported to the community college as all violations are also a violation of the Honor Code of your local community college.

Inclement Weather or School Closure Policy

Asynchronous online courses have many advantages over the traditional classroom. Among those advantages are the availability of the instructor, the opportunity to "attend" class from many locations, the flexibility of schedule, and no make-up days due to snow. To provide the required amount of "seat-time" for students, Elite Learning instructors will continue to present class material and require assignment submissions. When some schools are temporarily closed, it is necessary to require a continuation of assigned work even if students are absent from school due to weather or school closures. It is the responsibility of the student to access the class via Internet during this type of absence. **Students without Internet access beyond school hours will need to discuss this with their instructor at the beginning of the semester.**

Late Work Policy for Students

It is your responsibility to be logged every school day. Students are expected to work on course assignments for a minimum of 60 minutes per school day. If you are absent or unable to log on, please send a message explaining your absence as soon as possible. If you do not log on for more than three school days in a row, your guidance counselor will be contacted.

This is a college course, and you are expected to plan ahead for due dates and give yourself plenty of time to complete all work. DO NOT wait until the last minute. For example, if a writing assignment is open for an entire week, but you wait until ten minutes before the assignment closes and experience a technical problem, you will not be given an extension because ample time was provided for you to submit your work. Plan accordingly if you will be out of school on trips. All work must be completed before leaving for a school trip to prevent them from being late. Due dates are located on the calendar and throughout the course.

If you do not turn in an assignment on the deadline, you will be allowed to submit it with point deductions for one week (exceptions may apply). For example: If assignment is due on August 10, you will have until August 17 to submit it for partial credit. There will be an automatic 25-point deduction for all late submissions.

- Sue doesn't turn in her work by the August 10 deadline. On August 11, the instructor posted the following into Sue grade book:
 - Example comment in gradebook: (8-11) *This assignment was due on August 10 but not submitted. You may submit the work until August 17 with a 25-point deduction. If there are extenuating circumstances that have prevented you from submitted this assignment, please contact me as soon as possible. The zero will be removed after the assignment if submitted.*
- Sue turns in her work three days late. After grading the assignment, her instructor believes it is quality work. He assigns her a 90 BUT he then deducts 25 points because the assignment was late. Sue will see a 65 in the grade book. Students will be made aware of the last day to submit the assignment within the grade book.
- If Sue doesn't turn in her assignment by the final deadline, she will see an additional statement in her grade book. (8-18) *This assignment is now closed. It was not submitted by the final deadline. You may longer submit this assignment for a grade.*

Exceptions to the late work policy will only be allowed IF a documented excuse is provided by your school's guidance counselor or administrative staff (illness, family emergency, etc.). Email the teacher if problems occur so they can be handled on a one-on-one basis. Please be aware that SVETN's schedule requires that we adhere to deadlines, even when schools are closed. If you have internet access at home, continue to log in and participate in class even if your school is closed. If you do not have home internet access, it is your responsibility to inform the instructor at the beginning of the semester.

Student Acknowledgment

Please read and initial the following statements. I understand that:

Success in this course depends on each student's assumption of responsibility for completing the assigned work and submitting it in a timely manner;

Elite Learning strives to provide access to the content of this course 24/7; however, technical problems can occur. For this reason my work should not be postponed until the last minute;

Elite courses follow the community college calendar; therefore, inclement weather does not change class schedules;

Courses will be delivered asynchronously (i.e., all students will *not* be actively engaged in the course at the same times) through the World Wide Web using Canvas;

Courses of this nature requires that I have regular access to a computer *and* the Internet either at home or at school or both. If I do not have home Internet service, it is my responsibility to notify the instructor at the beginning of the semester;

Courses must meet regulations of both the high school and college; therefore, I should expect no less than 60 minutes of coursework per day. This will increase significantly for 6-credit courses;

The instructor will regularly interact electronically with me and other students but will not necessarily be available while I am online;

A designee of my school (guidance counselor or teacher) will proctor tests, quizzes, and examinations for courses as needed;

Grades will be assigned according to the community college 10-point grading scale; however, high school grades will be determined by the policy of the school;

Weighting of grades for this course, if any, is determined by the policy of my school;

I understand that my Elite Learning grades will be placed on my permanent college transcripts, and may affect my future enrollment at a college or university and/or financial aid;

Students must adhere to the Code of Student Conduct of Elite Learning and the school and will be subject to discipline if violations occur. This included all forms of plagiarism. More details are located in the Elite Learning Guide for Students.

Some classes have prerequisites, which means students are not allowed to take certain courses unless they have successfully completed other courses or placement tests. Students should contact your school counselor for more information.

FERPA REGULATIONS:

The Family Educational Rights and Privacy Act (FERPA) of 1974 is a federal law that was enacted to protect the privacy of students and their educational records. The intent of the legislation is to protect the rights of students and to ensure the privacy and accuracy of "educational information." Educational Information refers to any record maintained by an educational institution, including files, documents, and materials of any type which contain information directly related to students, and which allows a student to be identified.

Elite Learning supports all efforts to protect student records, however, it is extremely important to receive permission to report grades to the students' high school. It is also important to receive permission to contact students' parents or guardian as needed to report class progress. Permission must be received by the student AND parent or guardian.

I give permission to Elite Learning to report grades to my school as well as contact my parents/guardians as needed.

Parent/Guardian Permission

The following statement is found in the Elite Learning Student Guide. Although Elite Learning students are still high school students, it is important to note that students will be held to the same academic standard as students of the local community college. This is required of all dual enrollment courses.

“Each student is considered a responsible adult, and it is assumed that students will maintain standards of conduct appropriate to membership in this online learning program. Emphasis is placed on standards of student conduct rather than on limits or restrictions. Guidelines and regulations governing student conduct are developed by representatives of the faculty, staff, and administration. All Elite Learning students are community college students and must abide by the Code of Conduct of their representative college. Elite Learning’s Code of Conduct is derived from partner community college regulations.”
